SUMMARY OF THE INDUSTRY

India’s industrial and manufacturing sector has witnessed steady growth in recent years and is expected to continue expanding, supported by infrastructure development, industrialization, and increasing focus on workplace safety. With a large workforce and growing economic activity, India has emerged as a key market for industrial safety products, including safety footwear. The demand is driven by sectors such as construction, oil & gas, mining, manufacturing, pharmaceuticals, and heavy engineering, where safety compliance is critical. The industry comprises a mix of organized and unorganized players, including domestic manufacturers and international brands, catering to diverse customer requirements.

The safety footwear industry is also witnessing increasing adoption of advanced manufacturing technologies and automation. Companies are transitioning from traditional manual production processes to automated and precision-driven systems to improve efficiency, consistency, and scalability. The use of modern machinery, robotic systems, and digital monitoring tools has enhanced production capabilities and quality standards. Additionally, manufacturers are focusing on product innovation, use of specialized materials, and compliance with international safety standards such as IS, EN, and ASTM. This shift reflects a broader industry trend towards technology-driven manufacturing, improved product quality, and alignment with global safety and sustainability requirements.

For detailed information on our business activities, please refer chapter titled “Industry Overview” on page 97 of the Draft Red Herring Prospectus.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the proceeds of the Issue (“Gross Proceeds”), after deduction of Issue related expenses (“Net Proceeds”), for the following objects:

1. Funding capital expenditure requirements for the installation of solar power plant,
2. Funding capital expenditure requirements towards installation of additional machinery,
3. Funding incremental working capital requirements of our Company,
4. Funding inorganic growth through unidentified acquisitions and other strategic initiatives and General corporate purposes (collectively referred to herein as the **“Objects”**)

1. Funding capital expenditure requirements for the installation of solar power plant

Our Company proposes to utilize an aggregate amount of ₹362.40 lakhs from the Net Proceeds towards funding the capital expenditure for installation of solar power plants at three (3) of its manufacturing facilities. The proposed installations are intended to optimize energy consumption, reduce dependence on conventional grid-based electricity, and result in cost efficiencies in power consumption. In addition, the deployment of solar power infrastructure is expected to enhance operational efficiency and support environmentally sustainable manufacturing practices, thereby contributing to the long-term growth and resilience of the business.

The breakdown of such estimated costs is set forth below:

Sr. No.	Description	Proposed Capacity	Total Estimated Cost (in ₹ lakhs)
1	Grid Connected Roof Mounted Power Plant at ACME Gwalior	500KWp	165.00
2	Grid Connected Roof Mounted Power Plant at ACME Banthar	400KWp	138.00
3	Grid Connected Roof Mounted Power Plant at ACME Banmore	180KWp	59.40
	Total	1,080KWp	362.40

*As per the quotations received from **“Sun N Sand Energies Limited”** (GSTIN 29AAFFS5552C1Z6) dated February 25, 2026 valid till August 25, 2026.

2. Funding capital expenditure requirements for the purchase of equipment/machineries

The Company proposes to utilize an aggregate amount of ₹895.62 lakhs from the Net Proceeds towards funding capital expenditure for the procurement and installation of plant and machinery. The proposed investment includes acquisition of key equipment such as Knife Cutting Machine, Professional Nesting Station, Foaming Pouring Machine, Upper Link Molding Conveyor, and Air Oven, among others, which are intended to strengthen the Company’s manufacturing infrastructure.

The proposed addition of machinery is aimed at enhancing production capabilities, improving process efficiencies, and supporting the Company’s future growth requirements. The deployment of advanced and specialized equipment is expected to enable better utilization of resources, reduction in manual intervention, improved product consistency, and optimization of production timelines.

Sr. No.	Name of the Machinery/ Equipment	Quantity	Total Estimated Cost (in ₹ lakhs)	Potential Vendor	Date of Quotation	Validity
1	Knife cutting machine	4	151.27	GBOS Automate Inc.	February 24, 2026	1 year
2	Professional Nesting station	6	255.91	GBOS Automate Inc.	February 24, 2026	1 year
3	Knife Cutting Machine	6	392.39	GBOS Automate Inc.	February 24, 2026	1 year
4	Foaming Pouring Machine	2	75.16	Wenzhou Sogu Technology Co., Ltd	March 09, 2026	1 Year
5	Upper Link Molding Conveyor	1	18.11	Wenzhou Sogu Technology Co., Ltd	March 09, 2026	1 Year
6	Air Oven	1	2.79	Wenzhou Sogu Technology Co., Ltd	March 09, 2026	1 Year

3. To meet out the expenses of Working Capital Requirement

Our Company proposes to utilize an amount of up to ₹1,100.00 lakhs from the Net Proceeds towards meeting its incremental working capital requirements. The working capital requirements of the Company arise primarily on account of procurement of raw materials, maintenance of inventory levels, credit extended to customers, and day-to-day operational expenses in the ordinary course of business.

Historically, the Company has met its working capital requirements through a combination of internal accruals, equity contributions, and borrowings from banks and financial institutions. In line with the anticipated growth in operations and scale of business, the Company expects an increase in its working capital requirements. Accordingly, the proposed utilisation of Net Proceeds towards working capital is intended to support such growth, ensure adequate liquidity, and facilitate smooth business operations without constraints.

For further details of the working capital facilities currently availed by our Company, refer chapter and section titled “**Financial Indebtedness**” and “**Financial Information**” beginning on pages 188 and 185 of the Draft Red Herring Prospectus, respectively.

For detailed information on about the objects of the Issue, please refer chapter titled “**Object of the Issue**” on page 71 of the Draft Red Herring Prospectus.

RISK FACTORS

Top 10 risk factors of our Company are as follows:

1. Our Offices and Plants are located on leased premises and any disruption in these lease arrangements could adversely affect our business, operations, and financial performance.
2. Significant portion of our revenue has been generated from some states of India, any loss of business from these states may adversely affect our revenues and profitability.
3. Our revenue is highly concentrated among a small number of customers, with the top 10 customers accounting for 48.57% for the period ending on September 30, 2025, any reduction in business from these key clients, may cause significant revenue disruption.
4. Our failure to perform in accordance with the standards prescribed in work order of our client could result in loss of business or payment of liquidated damages.
5. Certain statutory approvals required for our manufacturing operations are pending and any delay or refusal in obtaining the same may adversely affect our operations
6. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, results of operations and cash flows.
7. We are exposed to credit risk from our customers and the recoverability of our trade receivables is subject to uncertainties.
8. Delays in depositing statutory dues including GST, Provident Fund or ESIC contributions may expose us to penalties and regulatory action.
9. We are dependent on our Individual Promoters, the Key Managerial Personnel and the Senior Management Personnel and the loss of, or our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.
10. High dependence on key raw materials (PU/PVC Compound, Leather, Steel Toe Caps) subject to commodity price volatility and import dependency may adversely impact our cost structures and margins.
